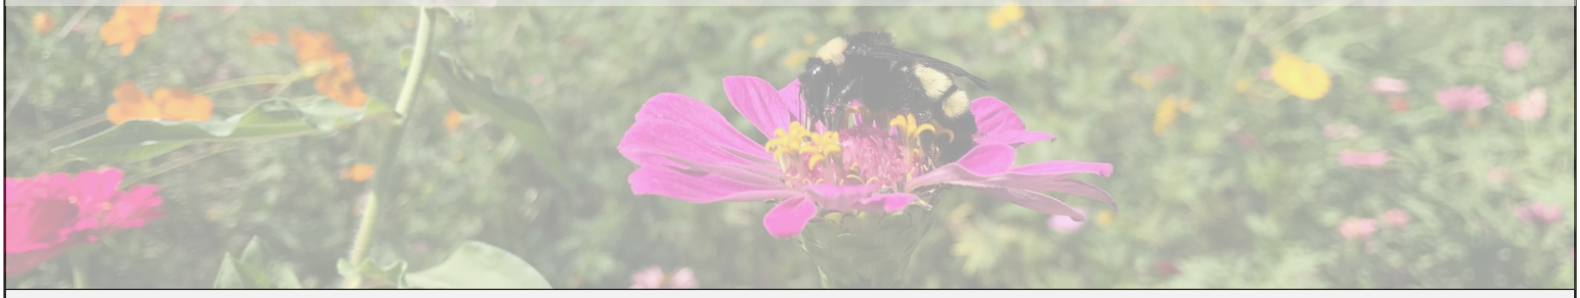
NC STATE UNIVERSITY

Bee Identification Workshop

with Elsa Youngsteadt and Hannah Levenson



May 8, 2019 ■ 9:00 am – 4:00 pm ■ NCSU Training Facilities

North Carolina is home to 500+ species of wild bees, which are critical pollinators in natural and agricultural systems. A first step in conserving these insects is learning to recognize and differentiate different kinds of bees from each other.

Want to learn more about bee identification?

Workshop participants will:

- Discover different bee lifestyles
- View key taxonomic features
- Translate those features into field IDs
- Learn how to create and curate a pinned collection (optional)
- Receive print and online resources and a small specimen set

Coffee and snacks will be provided – please bring a bag lunch and a refillable bottle. Portions of the workshop will be outside, please dress for the outdoors.

Register Now!

https://commerce.cashnet.com/NCSUCALS?ITEMCODE=CALS-BEEDINC

Registration is $20

Workshop will take place at: NC State Structural Pest Management Training and Research Facility
400 Chi Road, Raleigh, NC

The field portion will take place at: NCSU Agroecology Education Farm OR JC Raulston Arboretum
